

SLOPE DRAIN BAG

Sediment Collection

Part# SDB

Green mesh is for emergency storm water overflow

Kit includes 7 stakes

Structural Integrity – Stormwater Release – Sediment Retention

- Attaches to temporary slope drain for sediment collection
- Designed to fit 12" or smaller HDPE slope drainpipe.
- Built in emergency stormwater overflow, reduces force on the bag and slope drain system
- D-ring straps, stake loops and 7 stakes are used to secure the bag in place
- For use on construction sites, power plants, dredging areas and more to protect surrounding streams, property, and storm sewers
